30-4-85a. Eligibility factors specific to the EA program. This regulation is being amended to clarify an

emergency situation is limited to abuse, neglect, or abandonment of children, or situations resulting in imminent risk of loss of custody or institutionalization of children. Specific reference to disasters and homelessness are removed but such assistance may be given if an emergency situation, as defined above, is met.

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Tuesday, September 7, in Room 313-S (old Supreme Court Room), State Capitol, Topeka, to consider the adoption and amendment of a permanent regulation. All interested parties may submit written comments prior to the hearing to the Director of the Division of Workers Compensation, 800 S.W. Jackson, Suite 600, Topeka 66612-1227.

The 30 days before the public hearing will be considered the public comment period. All interested parties will be given a reasonable opportunity at the hearing to orally express their views in regards to the adoption of the proposed permanent regulation. Following the hearing, all oral and written comments submitted by interested parties will be considered by the director as a basis for making any change to the proposed regulation.

Following is a brief summary of the proposed regulation:

K.A.R. 51-9-7.—Fees for Medical and Hospital Services—The proposed change to this regulation has occurred because of the language contained within K.S.A. 44-510, which mandates the director of Workers Compensation to adopt rules and regulations for the establishment of a medical fee schedule. Accordingly, the medical fee schedule hereby being proposed is being adopted by reference and contains changes deemed appropriate by the Workers Compensation director and which is the result of a public hearing that was held on June 8, 1993 for the adoption of this permanent regulation.

Economic Impact Statement

The change in this regulation is to adopt by reference a medical fee schedule which establishes the maximum amount that can be charged for medical and hospital services. The fiscal impact to the division by passage of this proposed regulation is already being recognized in accordance with the current operating budget. There will be a definite fiscal impact on the health care provider, hospital or other entity providing the health care services because of the establishment of the maximum amount that can be charged for the health care services.

Copies of the full text of the proposed regulation or a copy of the medical fee schedule being adopted by reference may be obtained by writing to the Director of the Division of Workers Compensation, 800 S.W. Jackson, Suite 600, Topeka 66612-1227.

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 1:30 p.m. Thursday, September 9, in the first floor hearing room, State Corporation Commission Building, 1500 S.W. Arrowhead, Topeka, to consider the adoption of proposed changes to K.A.R. 28-19-7, an existing regulation, and the adoption of K.A.R. 28-19-202 and K.A.R. 28-19-210, proposed new regulations of the Department of Health and Environment, Division of Environment, Bureau of Air and Radiation.

The regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations and their economic impact follows. The summary of the existing regulation addresses only the substantial changes. The remaining proposed changes are intended only for the purpose of clarifying requirements that are now in effect.

K.A.R. 28-19-17. Definitions. Proposed revisions to K.A.R. 28-19-7 define and clarify a number of terms used in new regulations K.A.R. 28-19-202 and K.A.R. 28-19-210. Notable among these are the addition of a definition of the term "hazardous air pollutant" to include the extensive list of air pollutants required to be regulated under Title III of the Federal Clean Air Act. Other definitions have been added to clarify existing terms or to introduce terms otherwise defined in the Federal Clean Air Act.

There is no economic impact anticipated from the proposed amendments to K.A.R. 28-19-7 upon the affected regulated community, government agencies, or the general public.

K.A.R. 28-19-202. Annual emissions fee. New regulation K.A.R. 28-19-202 sets forth the administrative procedures for implementing the state fee program required by Title V of the federal clean air act. The federal act requires that states collect a fee from regulated sources equivalent to \$25 per ton of each regulated pollutant unless the state permitting authority can demonstrate that the program can be effectively implemented with revenues that correspond to a lesser fee. New regulation K.A.R. 28-19-202 proposes an annual fee of \$18 per ton based upon actual emissions of specified levels of selected pollutants. The \$18 per ton fee proposed is below the presumptive federal norm and will require a state demonstration of adequacy at the time of submittal of the Kansas permit program for approval by the U.S. Environmental Protection Agency. The KDHE's analysis of the resources needed to implement this new program estimates that the revenues generated will be adequate.

New regulation K.A.R. 28-19-202 will have significant economic impact upon the 250-300 major air pollution sources required to pay air emission fees. This impact will vary with each specific facility depending directly upon the quantity of air emissions from the facility subject to the \$18 per ton fee. New regulation

K.A.R. 28-19-202 is not expected to have significant impact upon government agencies except to the extent that they may be required to pay fees as major air sources or are the recipient of air fee-derived revenues as participants in the Kansas air program. Currently, the KDHE maintains agreements with local agencies in Wyandotte, Shawnee, Sedgwick and Johnson counties for assistance in implementing the state air program within these jurisdictions. Some of these local activities are related to the Title V Clean Air Act requirements and a proportional part of the fee revenues generated by new regulation K.A.R. 28-19-202 will be dispersed to participating local agencies. This new regulation will have economic impact upon the general public only to the extent that the fees paid by affected facilities are passed through to their service or product customers.

K.A.R. 28-19-210. Calculation of actual emissions. New regulation K.A.R. 28-19-210 clarifies the technical procedures required to be used to calculate actual emissions when emissions levels must be determined for such purposes as fee assessment and emission inventories. This regulation provides for several alternative emission calculation methods depending upon the type of source involved.

Significant economic impact upon the regulated community, government agencies, or the general public is not expected from the implementation of new regulation K.A.R. 28-19-210.

The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed changes to the existing regulation and the proposed new regulations. All interested parties may submit written comments prior to the hearing to Chuck Layman, Bureau of Air and Radiation, Building 740, Forbes Field, Topeka 66620. All interested parties will be given a reasonable opportunity to present their views orally on the proposed changes to the regulations and adoption of the proposed new regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to require each participant to limit any oral presentation to five minutes.

Copies of the regulations and the economic impact statement may be obtained from the Kansas Department of Health and Environment, Bureau of Air and Radiation, (913) 296-1587. Questions pertaining to these proposed changes and new rules and regulations should be directed to Chuck Layman, (913) 296-1579, or Jan Sides, (913) 296-1551.
